Psychotherapy clients have reached a point where they know why they feel badly, but don’t know how to release these bad feelings that keep them attached to their old stories and in the past. Using Gentle Reprocessing and other leading edge therapies, I help clients let go of these old stories so they can move on to a happier future.

If you’re a veteran, a first responder, a victim of physical, mental, or sexual abuse, a victim of a disaster, a person with a traumatic background, a person who has anger issues, or a person who is afraid of public speaking, this process could be for you.

Body-Centered Psychotherapy

Listen to your body...follow your heart.
The heart is the first organ to form in the body, and is the organizing factor for physical formation, including brain formation. Trauma, deprivation or neglect creates heart wounds, which keep us from accessing our deepest selves.

Emotional-Kinesthetic Psychotherapy (EK) facilitates an emotional, energetic rewiring, helping us activate and express the power of the heart. Emotional safety, words, touch, meditation, movement, presence and silence facilitate verbal and non-verbal expression. Meaningful work, fulfilling relationships, self-esteem, purpose and passion, love, intimacy and sexuality follow. Straight, GLBT and poly-friendly.

Onenessness - Existing To Living

Start your Neurobiological Shift
www.onenessma.org/awaken

The Oneness Blessing is a direct transfer of intelligent sacred energy, which causes the heart to flower and the mind to quiet. It initiates a neurobiological change in the brain.

The Oneness Blessing frees the senses from the constant chatter of the mind, bringing clarity and spontaneous feelings of love, joy, peace and inner silence. It dissolves negative patterns, releases traumas stored at the cellular and energetic levels, and facilitates deep emotional physical healing. Eventually the process brings a permanent end to personal suffering and full Awakening to the very highest states of consciousness.

We have regular large group events and smaller blessing circles within the Oneness Massachusetts group – check our website: OnenessMA.org for details and locations. Sign up for our newsletter and get email invitations to our large events.

Meet us at the Natural Living Expo, November 11-12. Visit Booth #16.

When we change ... the world changes.
Methods of achieving stability and clarity of mind become more and more essential as our social, political, and economic structures change dramatically. Raja Yoga is a simple but powerful form of meditation that can help you to develop peace of mind, resilience, and inner strength.

The Brahma Kumaris Learning Center for Peace is a worldwide spiritual organization, affiliated with the UN and recipient of seven Peace Messenger awards. Classes include meditation and a range of other practical tools for self-transformation. Workshops, group meditations, and retreats are held regularly.

All activities are offered free of charge, as a community service.

Worcester Yoga Center

Hatha Yoga begins with refining the physical body but does not stop there. The exercises involve slow precise stretching, strengthening, and breathing techniques, which not only tone the muscles but affect internal organs, nerves, skin, and virtually all body systems, making Yoga a superior wholistic method for physical fitness and preventive and corrective health care.

Certified Yoga teacher and therapist Ann Bissanti, trained in India by B.K.S. Iyengar, has studied Yoga and meditation for the past 30 years. She has taught Yoga at Leonard Morse Hospital in Natick, at various fitness centers and adult education programs, and privately.
